

Definition of a Infographic

- A picture is worth a thousand words
- “inviting as infographics are the ability to make them does not replace strong reading and writing skills” (Jaeger, 2012).
- “Infographics require deep understanding of the subject, the ability to summarize details and synthesize knowledge, and the creative spirit to wrap that knowledge up in an appealing way” (Jaeger, 2012).

Why Infographics?

Samples of Infographics

- Blended Classroom
- Flipped Classroom

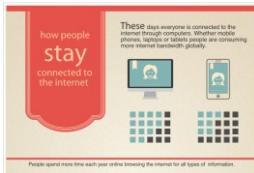

What You Need

- Plan
- Collect Data
- Compose Text Content
- Collect or Create Images

Infographic Tools

- Easel.ly
